

**PETITION TO THE SECRETARY OF THE INTERIOR FOR A RULEMAKING
TO WITHDRAW CERTAIN FEDERAL LANDS AND MINERALS IN COLORADO, MONTANA,
NEVADA, UTAH, AND WYOMING FROM OIL AND GAS LEASING**

I. INTRODUCTION

Conservatives for Responsible Stewardship (CRS) files this petition under the Administrative Procedure Act (APA), which provides “interested person[s] the right to petition for the issuance, amendment, or repeal of a rule.”¹ The rule requested by CRS pertains to 81 parcels on 116,980 acres of federal land and minerals that the Bureau of Land Management (BLM) recently and unsuccessfully sought to lease for oil and gas development.² CRS requests that pursuant to the APA, as well as section 204 of the Federal Land Policy and Management Act (FLPMA), the Secretary of the Interior issue a rule formally withdrawing these parcels from future oil and gas leasing pending the completion of further land use planning.³

Over the past few months, the Interior Department has directed its bureaus and offices to make “energy dominance” their highest priority. This paradigm shift in the management of our public lands, which is contrary to the “multiple use” and “sustained yield” mandate of FLPMA, is unnecessarily endangering places where Americans hunt, fish, and camp with their children, and that provide drinking water for nearby communities. “Energy dominance” is harming, rather than enhancing, the well-being of everyday Americans.

While some of these places have been spared, it was not because the Interior Department changed its priorities, but rather because the oil and gas industry opted not to purchase the leases offered by BLM. In fact, since this administration came to office, BLM has offered approximately 12.7 million acres of public lands for lease, but only 1.3 million acres (11 percent) have sold. Thus, in addition to placing our natural and cultural heritage at risk, the administration is wasting a tremendous amount of taxpayer resources on ill-conceived and under-performing oil and gas lease sales.

This petition, then, is intended to underscore the flaws of the administration’s so-called “energy dominance” approach to managing our public lands and begin restoring “multiple use” and “sustained yield” to their lawful place as the guiding principles of public lands management. While the specific parcels identified below deserve to be withdrawn from future leasing based on their value and importance to sportsmen, local communities, motorized recreationists, and other public land users, they are also emblematic of the broader problem with “energy dominance:” millions of acres of sensitive public lands are being included in oil and gas leases, even though there is little apparent demand from the oil and gas industry.

All of the lands discussed in this petition have significant value to the public for reasons other than oil and gas development. And now that the oil and gas industry has chosen not to lease them, the BLM, consistent with its true mission of “multiple use” and “sustained yield,” must formally evaluate whether they should be managed for other purposes.

¹ 5 U.S.C. § 553(e); *see also* 43 C.F.R. § 14.2 (reiterating right to petition the Interior Department for rulemakings).

² As required by 43 C.F.R. § 14.2, a geographic description of these parcels is included in Attachment 1.

³ As required by 43 C.F.R. § 14.2, an example of a prior withdrawal order is included in Attachment 2, which could serve as a template for the rule requested by this petition.

II. INTERESTS OF CONSERVATIVES FOR RESPONSIBLE STEWARDSHIP

CRS is a national, non-profit, grassroots organization founded on the premise that environmental stewardship and natural resources conservation are inherently conservative, and that the true conservative will be a good steward of the natural systems and resources that sustain life on earth. As such, we have approximately 15,000 members nationwide who visit and recreate on America's public lands. CRS and its members have a strong interest in ensuring the responsible management and stewardship of these shared assets. We seek to foster a better understanding of conservatism's stewardship requirement and advance public land policies that are smart, efficient, fiscally responsible, and economically sound.

By advancing our mission, we stay true to the genuine conservatism—articulated by Edmund Burke and promoted by great American conservative leaders from Theodore Roosevelt to Ronald Reagan—that instructs us to rise above lesser instincts and pure self-interest to leave a better world for our children and grandchildren.

The work we do enhances the health and well-being of everyone. It helps safeguard the air we breathe, the water we drink, and the special places that refresh and inspire us. It strengthens our society by encouraging balance between freedom and responsibility. It strengthens our nation by promoting sustainable economic growth and helping ensure that we do not squander our natural wealth.

III. FACTUAL BACKGROUND AND CONTEXT FOR THIS PETITION

A. "Energy Dominance" Now "Highest" Priority for BLM.

On March 28, 2017, President Trump issued Executive Order 13,783 ("Promoting Energy Independence and Economic Growth").⁴ This order requires federal agencies to "identify" and "rescind" rules and policies that "unduly burden the development of domestic energy resources. . . ."⁵ In response to E.O. 13,783, Secretary Zinke issued Secretarial Order 3349 ("American Energy Independence"), which initiated a sweeping departmental review of "all existing regulations, orders, guidance documents, policies, instructions, notices, implementing actions, and any other similar actions" to determine whether they did, in fact, burden energy development.⁶ This review culminated in the release of a report on October 24, 2017 (i.e., the "Burdens Report"), which recommends far-reaching regulatory and policy changes "to eliminate or minimize regulatory burdens" on energy development and "[t]o ensure energy policies receive the highest level attention across Interior. . . ."⁷

E.O. 13,783 and S.O. 3349 both target "energy independence." However, Secretary Zinke quickly rebranded this effort, and, by May 1, 2017, was instructing his bureaus and offices to pursue so-called "energy dominance."⁸ This is now the "highest" priority for BLM, which has aggressively

⁸ Sec. Order 3351 (May 1, 2017).

embraced its new mission, stating, “[g]oing into the new year, we remain committed to an era of American energy dominance. . . .”⁹

B. BLM Issues New Oil and Gas Leasing Policy; NEPA and Public Participation Now Optional.

On January 31, 2018, BLM issued a new oil and gas leasing policy (Instruction Memorandum (IM) 2018-034), as recommended by the Burdens Report.¹⁰ Two of the policy’s main objectives are to “streamline the leasing process to alleviate unnecessary impediments and burdens” and to “expedite the offering of lands for lease. . . .”¹¹ IM 2018-034 aims to achieve these objectives by overhauling the leasing process, including by:

- **Eliminating explicit recognition that “there is no presumed preference for oil and gas development over other uses”:** BLM prior’s leasing policy confirmed that “there is no presumed preference for oil and gas development over other uses.”¹² This language merely restated the multiple-use requirement of FLPMA.¹³ As federal courts have explained, “[i]t is past doubt that the principle of multiple use does not require BLM to prioritize development over other uses.”¹⁴ Because IM 2018-034 did not include this language, it suggests that there is now, in fact, a preference for oil and gas development on public lands.
- **Making NEPA compliance optional for oil and gas lease sales:** Complying with NEPA is no longer required for BLM lease sales, as IM 2018-034 encourages the use of “Determinations of NEPA Adequacy,” which are not NEPA documents and are of questionable legality when used to authorize oil and gas exploration and production activities on public lands. As a consequence, BLM is not required to develop and evaluate a range of alternatives for proposed lease sales or mitigation measures that could avoid or minimize potential impacts on wildlife habitat, recreation resources, water supplies, and other multiple-uses of the public lands.
- **Making public and stakeholder participation optional for oil and gas lease sales:** In addition to making NEPA compliance optional, IM 2018-034 also provides the public and stakeholders, such as state fish and wildlife agencies, with no guaranteed right to participate in the lease sale decision-making process, aside from a truncated, ten-day protest period.¹⁵
- **Eliminating rotational lease sales:** BLM will no longer rotate lease sales among its field offices, a process previously used “to balance the workload and to allow each field office to devote sufficient time and resources” to completing NEPA reviews and public and

¹⁵ IM 2018-034.

stakeholder outreach.¹⁶ Instead, BLM “will offer all parcels determined to be eligible and available within the state office’s jurisdiction.”¹⁷

C. BLM Ramps-Up Leasing, But Millions of Acres Not Selling.

As a direct outgrowth of “energy dominance” and a suite of new streamlining policies, including IM 2018-034, BLM has included increasingly more acreage in its quarterly lease sales. For example, in October 2017, BLM announced the “largest” lease sale ever within Alaska’s National Petroleum Reserve, a sale which Secretary Zinke claimed would “help achieve our goal of American Energy Dominance.”¹⁸ Additionally, there are currently over 2 million acres proposed for September and December 2018 lease sales.¹⁹

Yet, an increase in acreage offered has not led to an increase in acreage leased. In fact, in 2017, BLM offered over 11.8 million acres in quarterly oil and gas leases, but only 791,000 acres – or 7 percent – sold. This is less than the total amount of acres leased in 2016 (908,000), when BLM offered just 1.9 million acres for sale. Notably, the poor returns under so-called “energy dominance” are not confined to a single state, as less than 51 percent of offered acres sold in Alaska (< 1 percent), Montana (26 percent), Nevada (11 percent), and Utah (51 percent). This trend has continued in 2018, as, outside of Wyoming, BLM has sold less than 38 percent of the acreage offered at quarterly sales.²⁰

IV. “ENERGY DOMINANCE” VIOLATES FEDERAL LAW: CONSERVING FISH AND WILDLIFE SPECIES, HISTORIC AND CULTURAL RESOURCES, AND OPEN SPACES MUST RECEIVE EQUAL CONSIDERATION.

The administration’s so-called “Energy dominance” approach to land management has no basis in federal law, which devotes our public lands to “multiple uses” and “sustained yield” and limits leasing to places where oil and gas resources are likely to be found.

A. FLPMA does not allow for “energy dominance.”

1. FLPMA requires multiple use management, not the “dominance” of one use over any other.

FLPMA’s mandate is straightforward: manage public lands “on the basis of multiple use and sustained yield. . . .”²¹ “Multiple use” means

a combination of balanced and diverse resource uses that takes into account the long-term needs of future generations for renewable and nonrenewable resources, including, but not limited to, recreation, range, timber, minerals, watershed, wildlife and fish, and natural scenic, scientific and historical values; and harmonious and

¹⁹ Identified from BLM leasing websites.

²⁰ *Id.*

²¹ 43 U.S.C. § 1701(a)(7).

coordinated management of the various resources without permanent impairment of the productivity of the land and the quality of the environment with consideration being given to the relative values of the resources and not necessarily to the combination of uses that will give the greatest economic return or the greatest unit output.²²

And “sustained yield” means “the achievement and maintenance in perpetuity of a high-level annual or regular periodic output of the various renewable resources of the public lands consistent with multiple use.”²³ Taken together, these twin-pillars of public lands management affirmatively prohibit BLM from actively managing for a single, “dominant” use, including and especially oil and gas development. Federal courts have firmly rejected such efforts in the past.²⁴

2. BLM is not fulfilling its obligation to achieve “fair market value” for the commercial use of public lands.

FLPMA also requires that the American public “receive fair market value of the use of the public lands and their resources. . . .”²⁵ It is self-evident that when 12.7 million acres of public lands are offered for lease and only 1.3 million acres actually sell, these lands are not being put to their highest and best use. Whatever that use may be, it is clearly not oil and gas development.

3. BLM cannot “exclude” principal uses of the public lands without first notifying Congress.

Perhaps envisioning a scenario such as this, where BLM actively works to make one use “dominant” over all others across the public lands, Congress declared that

[a]ny management decision or action pursuant to a management decision that excludes (that is, totally eliminates) one or more of the principal or major uses for two or more years with respect to a tract of land of one hundred thousand acres or more shall be reported by the Secretary to the House of Representatives and the Senate. If within ninety days from the giving of such notice (exclusive of days on which either House has adjourned for more than three consecutive days), the Congress adopts a concurrent resolution of nonapproval of the management decision or action, then the management decision or action shall be promptly terminated by the Secretary.²⁶

Yet, to the best of our knowledge, the Interior Department has never notified Congress of its efforts to enshrine energy development as the “dominant” use of public lands. Thus, the BLM is carrying out a program which has not been properly presented to Congress for mandatory review and oversight.

²⁶ *Id.* § 1712(e)(2).

B. BLM is engaging in speculative leasing, contrary to requirements of the Mineral Leasing Act.

Contrary to the requirements of the Mineral Leasing Act (MLA), BLM is routinely offering parcels without any evidence that marketable oil and gas resources actually exist beneath them. Under the MLA, BLM may only offer for lease “lands . . . which are known or believed to contain oil or gas deposits. . . .”²⁷ For example, in Wyoming BLM’s March 2018 oil and gas lease sale, BLM offered five leases surrounding Fort Laramie National Historic Site, a unit of the National Park System. According to BLM, these leases are located in an area with “very low” development potential.²⁸ Nevertheless, and even though “[t]he superintendent of the Fort Laramie National Historic Site identified concerns with oil and gas development in proximity to the Historic Site”, BLM included the leases in the sale. (They did not sell).

Similarly, in Nevada BLM’s June 2018 oil and gas lease sale, BLM failed to generate any bids on several leases that overlap with mule deer winter range and migration corridors. These leases are situated in the Battle Mountain District Office, which “is rated as very low for development potential . . . with a low probability for any wells being drilled. . . .”²⁹ These are just two examples of much broader efforts by BLM to encourage speculative leasing, a practice inconsistent with the purpose and requirements of the MLA.

V. BLM MUST WITHDRAW 81 PARCELS ON 116,980 ACRES OF FEDERAL LANDS AND MINERALS, PENDING THE COMPLETION OF ADDITIONAL LAND USE PLANNING.

In light of the foregoing authorities, which affirmatively reject the basis for “energy dominance” and related policies, including IM 2018-034, we request that the Secretary of the Interior issue a rule formally withdrawing the parcels identified below from future oil and gas leasing.³⁰ Each of these parcels was offered – but did not sell – at recent oil and gas lease sales. We further request that the withdrawal remain in force at least until BLM completes additional land use planning for each of the parcels in question. Doing so would allow BLM, through coordination with the public and interested stakeholders, to determine whether these parcels should remain available for leasing in light of industry’s lack of interest or should be managed for other purposes, including hunting and fishing, conserving open space, and protecting drinking water sources.

The specific justification for withdrawing each of the parcels is set forth below.

A. Parcels in Big Game Habitat and Trout Streams

These parcels are located in big game habitat, including migration corridors, and/or alongside trout streams. Withdrawing them from future leasing would avoid the impacts of development on sensitive big game species and enhance hunting and fishing opportunities. Doing so would also

³⁰ CRS attempted to determine whether any of the leases included in this petition have been leased non-competitively. However, it is exceedingly difficult for the public to obtain information about non-competitive leasing, especially for Montana, Nevada, and Wyoming. Consequently, it is possible that certain leases identified in this petition have been issued non-competitively.

further compliance with Secretarial Order 3362, which directs BLM to “avoid[] development in the most crucial winter range and primary migration corridors” and “minimize[] development that would fragment winter range and primary migration corridors. . . .”³¹

B. Parcels in Popular Recreation Areas

These parcels are located in areas specifically designated or otherwise managed with a focus on recreation. Withdrawing them from future leasing would ensure that these areas continue to provide high-quality recreation experiences for current and future generations. Doing so would also further compliance with Secretarial Order 3366, which directs BLM to enhance recreation opportunities on public lands.³²

C. Parcels in Drinking Water Source Areas

These parcels are located in areas that provide drinking water for local communities. Withdrawing them from future leasing would ensure that these communities continue to have access to clean supplies of drinking water and avoid the risk of spills and contamination from oil and gas activities.

Lease Sale (Location)	Parcels To Be Withdrawn	Overview of Values
Dec. 2017 (Central Nevada)	<ol style="list-style-type: none"> 1. NV-17-12-437 2. NV-17-12-438 3. NV-17-12-439 4. NV-17-12-440 5. NV-17-12-441 6. NV-17-12-443 7. NV-17-12-445 8. NV-17-12-446 9. NV-17-12-448 <p>Total acres: 16,453</p>	<ul style="list-style-type: none"> • Close Proximity to Current/Future Drinking Well Sites: all parcels identified at left • Additional Info from BLM: According to the Virgin Valley Water District, “[b]ecause of the proximity to our current and future well sites, and the recharge area for Basin 222, we request the Bureau of Land Management not allow any leases in the Group A parcels because there is not enough scientific data to determine potential impacts of oil and gas exploration, development, and production to the Muddy Creek Aquifer, from which we draw the drinking water for the Town of Bunkerville and Mesquite City.”³⁷

D. Parcels by National Monuments

These parcels are located just outside the boundaries of Basin and Range National Monument. Withdrawing them from future leasing would ensure the ongoing protection of the monument’s “objects of historic and scientific interest,” which include a “vast, rugged landscape” and “unbroken expanse” that provides “important habitat for game species including desert bighorn sheep, mule deer, Rocky Mountain elk, and pronghorn.”³⁸

	Total acres: 7,660	
--	---------------------------	--

E. Parcels in Greater Sage-Grouse Habitat

These parcels are located in habitat designated for the protection of Greater sage-grouse. Withdrawing them from future leasing would help “prioritize” oil and gas leasing outside of this habitat, as required by BLM’s sage-grouse conservation plans, and would also help avoid the need to list sage-grouse under the Endangered Species Act in the future.³⁹

Lease Sale (Location)	Parcels To Be Withdrawn	Overview of Values

F. Parcels Including Historic and Cultural Resources

These parcels include fragile historic and cultural resources. Withdrawing them from future leasing would help protect their sensitive settings from intrusive and damaging modern infrastructure, which can adversely affect their historic and cultural significance.

³⁹ See, e.g., BLM, Record of Decision and Approved RMP Amendments for the Rocky Mountain Region 1-25 (Sept. 2015) (requiring BLM to “prioritize oil and gas leasing and development outside of identified PHMAs and GHMAs.”).

⁴⁰ BLM, Environmental Assessment DOI-BLM-NV-B020-2017-0030-EA 29 (Jan. 2018), available at https://eplanning.blm.gov/epl-front-office/projects/nepa/96551/130930/159737/20180116_OilGasLeaseEA_508compliant.pdf.

VI. CONCLUSION

For the foregoing reasons, the Interior Department must initiate a rulemaking to withdraw the 81 parcels identified in this petition from future oil and gas leasing. Doing so will allow the BLM to reconsider the management of these areas through the land use planning process and consistent with BLM’s “multiple use” and “sustained yield” mandate. As required by 43 C.F.R. § 14.3, please ensure that this petition is “promptly considered” and acted upon.

ATTACHMENT 1

THE FOLLOWING ACQUIRED LANDS ARE SUBJECT TO FILINGS IN THE MANNER SPECIFIED IN THE APPLICABLE PORTIONS OF THE REGULATIONS IN 43 CFR, SUBPART 3120.

PARCEL ID: 7894 SERIAL #: COC78269

T.0030N., R.0860W., 6TH PM

Section 1: Lot 5;

U.S. Interest 50.00%

Section 12: Lot 2-4;

U.S. Interest 50.00%

Routt County

Colorado 167.820 Acres

All lands are subject to Exhibit CO-34 to alert lessee of potential habitat for a threatened, endangered, candidate, or other special status plant or animal

All lands are subject to Exhibit CO-39 to protect cultural resources

All lands are subject to Exhibit CO-56 to alert lessee of potential supplementary air analysis

All lands are subject to Exhibit LS-NSO-105 to protect perennial water sources.

All lands are subject to Exhibit LS- CSU-107 to protect Medium priority sagebrush habitat.

All lands are subject to Exhibit LS-CSU-110 to protect fragile soils.

All lands are subject to Exhibit LS-CSU-111 to protect steep slopes.

All lands are subject to Exhibit LS-TL-104 Columbian sharp-tailed grouse crucial winter habitat will be closed from December 16 to March 15.

All lands are subject to Exhibit LS-TL-136 to protect Crucial winter habitat will be closed to surface disturbing activities from December 1 to April 30, with the intent that this stipulation apply after the big game hunting season.

PVT/BLM; CON: LSFO

All lands are subject to Exhibit KFO-CSU-1 to protect soils.

All lands are subject to Exhibit KFO-CSU-2 to protect municipal watersheds and public water supplies:

All lands are subject to Exhibit KFO-CSU-3 to protect perennial streams, water bodies, fisheries, and riparian areas.

All lands are subject to KFO-CSU-15 to maintain scenic quality in accordance with documented public sensitivity to visual aesthetics and visibility.

All lands are subject to Exhibit KFO-LN-1 to protect migratory bird nesting habitat.

All lands are subject to Exhibit KFO-LN-8 to protect high value wildlife habitat.

BLM; CON: KFO

PARCEL ID: 7895 SERIAL #: COC78316

T.0030N., R.0860W., 6TH PM

Section 11: Lot 1-5,10,15;

Section 13: Lot 5,6,12-14;

Section 14: Lot 2,3,5-12,15,16;

Routt County

Colorado 1007.430 Acres

All lands are subject to Exhibit CO-34 to alert lessee of potential habitat for a threatened, endangered, candidate, or other special status plant or animal

All lands are subject to Exhibit CO-39 to protect cultural resources

All lands are subject to Exhibit CO-56 to alert lessee of potential supplementary air analysis

The following lands are subject to Exhibit LS-NSO-105 to protect perennial water sources:

T.0030N., R.0860W., 6TH PM

Section 11: Lot 1-3,5,10,15;

Section 14: Lot 5;

The following lands are subject to Exhibit LS-CSU-107 to protect Medium priority sagebrush habitat:

T.0040N., R.0860W., 6TH PM
Section 32: NWNE;

PVT/BLM; CON: LSFO

PARCEL ID: 7055 SERIAL #: COC78323

T.0050N., R.0860W., 6TH PM
Section 31: W2E2;

Routt County
Colorado 160.000 Acres

All lands are subject to Exhibit CO-01 to alert lessee for the protection of surface and longwall coal mines where oil and gas development is incompatible with planned coal extraction.

All lands are subject to Exhibit CO-29 to alert lessees of paleontological inventory requirements.

All lands are subject to Exhibit CO-34 to alert lessee of potential habitat for a threatened, endangered, candidate, or other special status plant or animal.

All lands are subject to Exhibit CO-39 to protect cultural resources.

All lands are subject to Exhibit CO-46 to alert lessees that this lease is subject to valid existing rights to mine and extract the coal under the applicable Federal coal leases and the approval granted under those leases. BLM will not approve any oil and gas operations which interfere with the coal mining in the lands herein described. The Mine Safety and Health Administration shall have jurisdiction over all safety issues related to coal mining, which may include CMM collection by the lessee.

All lands are subject to Exhibit CO-56 to alert lessee of potential supplementary air analysis.

The following lands are subject to Exhibit GRSG-NSO-46e(1) stipulation to leases in PHMA. No Surface Occupancy in PHMA:

T.0050N., R.0860W., 6TH PM
Section 31: NWNE;

The following lands are subject to Exhibit GRSG-TL-46e to avoid, minimize, and compensate for direct disturbance, displacement, or mortality of greater sage-grouse during leking, nesting, and early brood-rearing:

T.0050N., R.0860W., 6TH PM
Section 31: NWNE;

All lands are subject to Exhibit LS-CSU-107 to protect Medium priority sagebrush habitat.

The following lands are subject to Exhibit LS-CSU-110 to protect fragile soils:

T.0050N., R.0870W., 6TH PM
Section 1: Lot 5;

The following lands are subject to Exhibit LS-CSU-111 to protect steep slopes:

T.0050N., R.0870W., 6TH PM
Section 1: Lot 5;

All lands are subject Exhibit LS-CSU-134 where oil and gas operations are proposed within the area of an approved underground coal mine.

All lands are subject to Exhibit LS-TL-104 to protect Columbian sharp-tailed grouse crucial winter habitat will be closed from December 16 to March 15.

All lands are subject to Exhibit LS-TL-112 to protect Columbian sharp-tailed grouse nesting habitat will be closed to surface disturbing activities from March 1 to June 30.

All lands are subject to Exhibit LS-TL-137 to protect Crucial winter habitat will be closed to surface disturbing activities from December 1 to April 30, with the intent that this stipulation apply after the big game hunting season.

PVT/BLM; CON: LSFO

UT-LN-130: Greater Sage-Grouse – Density Limitation

UT-LN-131: Greater Sage-Grouse – Net Conservation Gain

UT-LN-132: Greater Sage-Grouse – Required Design Features

UT-LN-133: Greater Sage-Grouse – Buffer

UT-LN-135: County Coordination

T&E-11: California Condor

Priority Habitat Management Areas (Core only) from habitat fragmentation and loss. This lease does not guarantee the lessee the right to occupy the surface of the lease for the purpose of producing oil and natural gas within Greater Sage-Grouse designated PHMAs (Core only). The surface occupancy restriction criteria identified in this stipulation may preclude surface occupancy and may be beyond the ability of the lessee to meet due to existing surface disturbance on Federal, State, or private lands within designated PHMAs (Core only) or surface disturbance created by other land users. The BLM may require the lessee or operator to enter into a unit agreement or drilling easement to facilitate the equitable development of this and surrounding leases.

Stipulations:

- Lease Notice No. 1
- Lease Notice No. 2
- Lease Notice No. 3
- Lease Stipulation No. 1
- Lease Stipulation No. 2
- Lease Stipulation No. 3

Special Lease Notice:

This parcel is located within the Miller Mountain Management Area. Development within the Miller Mountain Management Area will be intensively managed per the Pinedale RMP and any proposed development will be reviewed in consideration of the following relevant "Management Objectives and Actions" listed in the Pinedale Record of Decision and Approved Pinedale Resource Management Plan:

- c. The Management Area is available for oil and gas leasing subject to mitigation.
- e. No net increase in miles of road is allowed.
- f. Surface disturbance is prohibited on slopes greater than 15%.
- g. Road construction is prohibited on talus slopes.

- TLS (1) Nov 15 to Apr 30; (2) as mapped on the Kemmerer Field Office and the Pinedale Field Office GIS database; (3) protecting big game crucial winter range.
- TLS (1) Mar 15 to Jun 30; (2) as mapped on the Kemmerer Field Office and the Pinedale Field Office GIS database; (3) no surface use to seasonally protect Greater Sage-Grouse breeding, nesting and early brood-rearing habitats (independent of habitat suitability) inside designated Priority Habitat Management Areas (Core only).
- TLS (1) Dec 1 to Mar 14; (2) as mapped on the Kemmerer Field Office and the Pinedale Field Office GIS database; (3) no surface use to seasonally protect Greater Sage-Grouse winter concentration areas in designated Priority Habitat Management Areas (Core only) and outside designated PHMAs (Core

only) when supporting wintering Greater Sage-Grouse that attend leks within designated PHMAs (Core only).

- CSU (1) Surface occupancy or use will be restricted to no more than an average of one disturbance location per 640 acres using the Disturbance Density Calculation Tool (DDCT), and the cumulative value of all applicable surface disturbances, existing or future, must not exceed 5 percent of the DDCT area, as described in the DDCT manual; (2) as mapped on the Kemmerer Field Office and the Pinedale Field Office GIS database; (3) to protect Greater Sage-Grouse designated Priority Habitat Management Areas (Core only) from habitat fragmentation and loss. This lease does not guarantee the lessee the right to occupy the surface of the lease for the purpose of producing oil and natural gas within Greater Sage-Grouse designated PHMAs (Core only). The surface occupancy restriction criteria identified in this stipulation may preclude surface occupancy and may be beyond the ability of the lessee to meet due to existing surface disturbance on Federal, State, or private lands within designated PHMAs (Core only) or surface disturbance created by other land users. The BLM may require the lessee or operator to enter into a unit agreement or drilling easement to facilitate the equitable development of this and surrounding leases.

- CSU (1) Surface occupancy or use will be restricted or prohibited unless the operator and surface managing agency arrive at an acceptable plan for mitigation of anticipated impacts; (2) as mapped on the Kemmerer Field Office and the Pinedale Field Office GIS database; (3) protecting Class I and/or Class II Visual Resource Management Areas.

- CSU (1) Surface occupancy or use will be restricted or prohibited unless the operator and surface managing agency arrive at an acceptable plan for mitigation of anticipated impacts; (2) as mapped on the Pinedale Field Office GIS database; (3) protecting resources within Miller Mountain Management Area.

- TLS (1) Mar 15 to Jun 30; (2) as mapped on the Kemmerer Field Office GIS database; (3) no surface use to seasonally protect Greater Sage-Grouse breeding, nesting and early brood-rearing habitats (independent of habitat suitability) inside designated Priority Habitat Management Areas (Core only).
- TLS (1) Dec 1 to Mar 14; (2) as mapped on the Kemmerer Field Office GIS database; (3) no surface use to seasonally protect Greater Sage-Grouse winter concentration areas in designated Priority Habitat Management Areas (Core only) and outside designated PHMAs (Core only) when supporting wintering Greater Sage-Grouse that attend leks within designated PHMAs (Core only).
- CSU (1) Surface occupancy or use will be restricted to no more than an average of one disturbance location per 640 acres using the Disturbance Density Calculation Tool (DDCT), and the cumulative value of all applicable surface disturbances, existing or future, must not exceed 5 percent of the DDCT area, as described in the DDCT manual; (2) as mapped on the Kemmerer Field Office GIS database; (3) to protect Greater Sage-Grouse designated Priority Habitat Management Areas (Core only) from habitat fragmentation and loss. This lease does not guarantee the lessee the right to occupy the surface of the lease for the purpose of producing oil and natural gas within Greater Sage-Grouse designated PHMAs (Core only). The surface occupancy restriction criteria identified in this stipulation may preclude surface occupancy and may be beyond the ability of the lessee to meet due to existing surface disturbance on Federal, State, or private lands within designated PHMAs (Core only) or surface disturbance created by other land users. The BLM may require the lessee or operator to enter into a unit agreement or drilling easement to facilitate the equitable development of this and surrounding leases.
- CSU (1) Surface occupancy or use will be restricted or prohibited unless the operator and surface managing agency arrive at an acceptable plan for mitigation of anticipated impacts; (2) as mapped on the Kemmerer Field Office GIS database; (3) protecting Class I and/or Class II Visual Resource Management Areas.
- CSU (1) Surface occupancy or use within 1/4 mile or visual horizon of the trail, whichever is closer, may be restricted or prohibited unless the operator and surface managing agency arrive at an acceptable plan for mitigation of anticipated impacts; (2) as

mapped on the Kemmerer Field Office GIS database; (3) protecting cultural and scenic values of the Oregon/Mormon Trail.

agency arrive at an acceptable plan for mitigation of anticipated impacts; (2) as mapped on the Kemmerer Field Office GIS database; (3) protecting cultural and scenic values of the Oregon/Mormon Trail.

ATTACHMENT 2

Based on site location, ethnographic information, continuity of occupation, and consultation evidence, this individual has been identified as Kumeyaay. The Kumeyaay Indians are represented today by the Barona Group of Capitan Grande Band of Mission Indians of the Barona Reservation, California; Campo Band of Diegueno Mission Indians of the Campo Indian Reservation, California; Capitan Grande Band of Diegueno Mission Indians of California; Ewiiapaayp Band of Kumeyaay Indians, California; Inaja Band of Diegueno Mission Indians of the Inaja and Cosmit Reservation, California; Jamul Indian Village of California; La Posta Band of Diegueno Mission Indians of the La Posta Indian Reservation, California; Manzanita Band of Diegueno Mission Indians of the Manzanita Reservation, California; Mesa Grande Band of Diegueno Mission Indians of the Mesa Grande Reservation, California; San Pasqual Band of Diegueno Mission Indians of California; Santa Ysabel Band of Diegueno Mission Indians of the Santa Ysabel Reservation, California; Sycuan Band of Diegueno Mission Indians of California; and Viejas (Baron Long) Group of Capitan Grande Band of Mission Indians of the Viejas Reservation, California.

Officials of Caltrans and San Diego State University have determined that, pursuant to 25 U.S.C. 3001 (9–10), the human remains described above represent the physical remains of a minimum of one individual of Native American ancestry. Officials of Caltrans and San Diego State University also have determined that, pursuant to 25 U.S.C. 3001 (3)(A), the 57 objects described above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony. Lastly, officials of Caltrans and San Diego State University have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and associated funerary objects and the Barona Group of Capitan Grande Band of Mission Indians of the Barona Reservation, California; Campo Band of Diegueno Mission Indians of the Campo Indian Reservation, California; Capitan Grande Band of Diegueno Mission Indians of California; Ewiiapaayp Band of Kumeyaay Indians, California; Inaja Band of Diegueno Mission Indians of the Inaja and Cosmit Reservation, California; Jamul Indian Village of California; La Posta Band of Diegueno Mission Indians of the La Posta Indian

Reservation, California; Manzanita Band of Diegueno Mission Indians of the Manzanita Reservation, California; Mesa Grande Band of Diegueno Mission Indians of the Mesa Grande Reservation, California; San Pasqual Band of Diegueno Mission Indians of California; Santa Ysabel Band of Diegueno Mission Indians of the Santa Ysabel Reservation, California; Sycuan Band of Diegueno Mission Indians of California; and Viejas (Baron Long) Group of Capitan Grande Band of Mission Indians of the Viejas Reservation, California.

Representatives of any other Indian tribe that believes itself to be culturally affiliated with the associated funerary objects should contact Lynn H. Gamble, Director, Collections Management Program, San Diego State University, 5500 Campanile Drive, San Diego, CA 92182–4443, telephone (619) 594–2305, before June 26, 2009. Repatriation of the human remains and associated funerary objects to the Kumeyaay Cultural Repatriation Committee, on behalf of the Federally-recognized Barona Group of Capitan Grande Band of Mission Indians of the Barona Reservation, California; Campo Band of Diegueno Mission Indians of the Campo Indian Reservation, California; Capitan Grande Band of Diegueno Mission Indians of California; Ewiiapaayp Band of Kumeyaay Indians, California; Inaja Band of Diegueno Mission Indians of the Inaja and Cosmit Reservation, California; Jamul Indian Village of California; La Posta Band of Diegueno Mission Indians of the La Posta Indian Reservation, California; Manzanita Band of Diegueno Mission Indians of the Manzanita Reservation, California; Mesa Grande Band of Diegueno Mission Indians of the Mesa Grande Reservation, California; San Pasqual Band of Diegueno Mission Indians of California; Santa Ysabel Band of Diegueno Mission Indians of the Santa Ysabel Reservation, California; Sycuan Band of Diegueno Mission Indians of California; and Viejas (Baron Long) Group of Capitan Grande Band of Mission Indians of the Viejas Reservation, California, may proceed after that date if no additional claimants come forward.

San Diego State University is responsible for notifying the Barona Group of Capitan Grande Band of Mission Indians of the Barona Reservation, California; Campo Band of Diegueno Mission Indians of the Campo Indian Reservation, California; Capitan Grande Band of Diegueno Mission Indians of California; Ewiiapaayp Band of Kumeyaay Indians, California; Inaja Band of Diegueno Mission Indians of the Inaja and Cosmit Reservation, California; Jamul Indian Village of

California; La Posta Band of Diegueno Mission Indians of the La Posta Indian Reservation, California; Manzanita Band of Diegueno Mission Indians of the Manzanita Reservation, California; Mesa Grande Band of Diegueno Mission Indians of the Mesa Grande Reservation, California; San Pasqual Band of Diegueno Mission Indians of California; Santa Ysabel Band of Diegueno Mission Indians of the Santa Ysabel Reservation, California; Sycuan Band of Diegueno Mission Indians of California; Viejas (Baron Long) Group of Capitan Grande Band of Mission Indians of the Viejas Reservation, California; and the Kumeyaay Cultural Repatriation Committee, which is composed of the authorized NAGPRA representatives of the aforementioned Indian tribes, that this notice has been published.

Dated: April 15, 2009

Sherry Hutt,

Manager, National NAGPRA Program.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[CO–923–1430–ET; COC–70988]

Public Land Order No. 7733; Withdrawal of Public Land for Emerald Mountain Recreation Management Area; Colorado

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order withdraws approximately 4,138 acres of public lands from all forms of appropriation under the public land laws, including the United States mining laws, and the mineral and geothermal leasing laws, for a period of 20 years for the Bureau of Land Management to protect the scenic, recreation, water quality and wildlife habitat values of the Emerald Mountain Recreation Management Area in Routt County, Colorado.

DATES: *Effective Date:* May 22, 2009.

FOR FURTHER INFORMATION CONTACT: John D. Beck, Branch of Lands and Realty, Colorado State Office, 2850 Youngfield Street, Lakewood, Colorado 80215–7093, 303–239–3882.

SUPPLEMENTARY INFORMATION: The lands embraced within the exterior boundaries of this withdrawal were recently acquired by the Bureau of Land Management from the State of Colorado to protect the scenic, recreation, water quality and wildlife habitat values.

conducted before the expiration date pursuant to Section 204(f) of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714(f) (2000), the Secretary determines that the withdrawal shall be extended.

Dated: May 19, 2009.

Ken Salazar,

Secretary of the Interior.

BILLING CODE 4310-JB-P

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-451 (Second Review)]

Gray Portland Cement and Cement Clinker From Mexico

AGENCY: United States International Trade Commission.

ACTION: Termination of review.

SUMMARY: On April 6, 2009, the U.S. Department of Commerce published notice of the revocation of its antidumping duty order on gray portland cement and cement clinker from Mexico and termination of the sunset review of the order (74 FR 15435). Accordingly, the Commission gives notice that its antidumping duty review concerning gray portland cement and cement clinker from Mexico (Investigation No. 731-TA-451 (Second Review)) is terminated.

DATES: *Effective Date:* April 1, 2009.

FOR FURTHER INFORMATION CONTACT: Jim McClure (202-205-3191 or via e-mail james.mcclure@usitc.gov), Office of Investigations, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436. Hearing-impaired individuals are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on 202-205-1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202-205-2000. General information concerning the Commission may also be obtained by accessing its Internet server (<http://www.usitc.gov>). The public record for these investigations may be viewed on the Commission's electronic docket (EDIS) at <http://edis.usitc.gov>.

Authority: This investigation is being terminated under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to section 207.40 of the Commission's rules (19 CFR 207.40).

By order of the Commission.

Issued: May 20, 2009.

Marilyn R. Abbott,

Secretary to the Commission.

BILLING CODE 7020-02-P

DEPARTMENT OF JUSTICE

Notice of Lodging of Consent Decree Under the Comprehensive Environmental Response, Compensation, and Liability Act

Pursuant to Department of Justice policy, notice is hereby given that, on May 18, 2009, a proposed Consent Decree in *In re James Piolet*, Case No. 06-01026 (Bankr. N.D. Ill.) and *In re J.P. Investments, Inc.*, Case No. 06-01037 (Bankr. N.D. Ill.) was lodged with the United States Bankruptcy Court for the Northern District of Illinois. The Consent Decree provides for recovery of response costs that the U.S. Environmental Protection Agency ("EPA") has incurred and will incur in addressing environmental contamination at two sites: the Midwest Metallics Site in Summit, Illinois and the H&H Enterprises Site in Gary, Indiana. The United States has asserted a claim against the J.P. Investments bankruptcy estate for \$5,087,276 in costs associated with the Midwest Metallics Site and it has asserted a claim against the James Piolet bankruptcy estate for \$3,210,411.66 in costs associated with the H&H Enterprises Site.

The proposed Consent Decree would resolve the United States' claims in the two bankruptcy cases in exchange for providing EPA: (i) A \$700,000.00 allowed secured claim against the James Piolet bankruptcy estate, to be paid on a priority basis pursuant to 11 U.S.C. 725; (ii) a \$2,510,411.66 allowed general unsecured claim against the James Piolet bankruptcy estate; (iii) a \$3,391,517.33 allowed general unsecured claim against the J.P. Investments bankruptcy estate; and (iv) a \$1,695,758.67 allowed general unsecured subordinated claim against the J.P. Investments bankruptcy estate.

The Department of Justice will receive comments relating to the Consent Decree for a period of thirty (30) days from the date of this publication. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and mailed either electronically to pubcommentees.enrd@usdoj.gov or in hard copy to U.S. Department of Justice, P.O. Box 7611, Washington, DC 20044-7611. Comments should refer to *In re James Piolet* and *In re J.P. Investments, Inc.*

and D.J. Ref. Nos. 90-11-2-1092/2 and 90-11-2-1092/3.

The Consent Decree may be examined at the offices of the U.S. Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, 14th Floor, Chicago, Illinois. During the public comment period, the Consent Decree may also be examined on the following Department of Justice Web site: http://www.usdoj.gov/enrd/Consent_Decrees.html. A copy of the Consent Decree may also be obtained by mail from the Department of Justice Consent Decree Library, P.O. Box 7611, Washington, DC 20044-7611 or by faxing or e-mailing a request to Tonia Fleetwood (tonia.fleetwood@usdoj.gov), fax no. (202) 514-0097, phone confirmation number (202) 514-1547. In requesting a copy from the Consent Decree Library, please enclose a check in the amount of \$4.25 (17 pages at 25 cents per page reproduction cost) payable to the U.S. Treasury.

Maureen M. Katz,

Assistant Chief, Environmental Enforcement Section, Environment and Natural Resources Division.

BILLING CODE 4410-15-P

DEPARTMENT OF JUSTICE

Notice of Lodging of Consent Decree In United States v. MI Metals, Inc. Under the Clean Air Act

Under 28 CFR 50.7, notice is hereby given that on May 20, 2009, a proposed consent decree ("Consent Decree") between MI Metals, Inc. ("MI Metals") and the United States, Civil Action No. 8:09-cv-921, was lodged with the United States District Court for the Middle District of Florida, Tampa Division.

The Consent Decree would resolve claims asserted by the United States against MI Metals pursuant to Section 113(b) of the Clean Air Act (the "Act"), 42 U.S.C. 7413(b), seeking injunctive relief and the assessment of civil penalties for MI Metal's violations of Section 112 of the Act, 42 U.S.C. 7412, and the National Emissions Standards for Hazardous Air Pollutants ("NESHAP") for Secondary Aluminum Production, codified at 40 CFR Part 63, Subparts A and RRR, and Rule 62-204.800(11) of the Florida Administrative Code (which incorporates the federal regulations by reference). Pinellas County is a party to the settlement and has moved to intervene in this action.

MI Metals operates a secondary aluminum production facility in Oldsmar, Pinellas County, Florida. The
